

Decarbonising Heating.
In Practice.

Networking to Rebuild Ukraine

- **ReBuild Ukraine** is an international conference and exhibition in Warsaw, Poland, highlighting investments required to rebuild Ukraine's war-torn economy. This year's event is in particular focusing on construction, energy, housing and digital technologies enabling smart cities.
- The latest exhibition took place in November 2023 attracting 550 exhibitors from 30 countries and more than 5000 attendees from 45 countries. Read more on www.rebuildukraine.in.ua/en
- Heatnet Global will have a stand in the Swedish pavilion at which we will be able to interact with other companies in the sector, and not least network with potential customers and partners. We will also be invited to make a presentation introducing the technologies and services offered by our member companies.

Heatnet Global – In Person Activity

Rebuild Ukraine Conference and Exhibition

Warsaw

13-14 November

At the event we will focus on technologies and services in three key areas

Building Efficiency – New Build and Retrofit

- Energy Efficiency
- Heat Distribution
- AI

Heat Network Asset Management

- System Optimisation
- Leak Detection
- Network refurbishment

Small Scale Heat Generation

- Recovering Waste heat
- Bioheat
- Heat Pumps

We will also highlight the importance of **digital infrastructure** to maximise the benefits of new technologies, thereby enabling cost savings for operators and end-users.

Finally, we will present the **training services** that are offered by Heatnet Global and our partners via the Heat Academy platform.

Please send a mail to pa@heatnetglobal.com if you wish to learn more about this activity.
